

Your new
family of brands

MADE IN EUPEN

Looking for
high-quality foams?
Here's your
choice!

EUCABASE[®]

EUCASELECT[®]

EUCAFEEL[®]

EUCAVISCO[®]

Dear customers and interested parties,

We are focused on your needs – that is why we continually expanded our product portfolio. The results: We can always offer you the right model of foam material for your application from our wide range of quality foams. To give you an overview of our range, we have now rearranged our product portfolio and developed four new brands.

EUCABASE®, **EUCASELECT®**, **EUCAFEEL®** and **EUCAVISCO®**: With our new family of brands we offer you the clearest possible insight into our far-reaching range. This makes it easy to always find the right quality of foam for your application.

We wouldn't be EUPEN if we couldn't maintain consistence of supply through all renewals. You can therefore rely on the highest quality across the entire range of products in our new family of brands. EUPEN still epitomises the best raw materials, unique formulations, close tolerances and the highest standards.

Get to know our new family of brands and profit from our wide range of quality foam products.

**Kindest regards,
Pascal Timmerman**

Sales Manager
EUPEN Foam Products

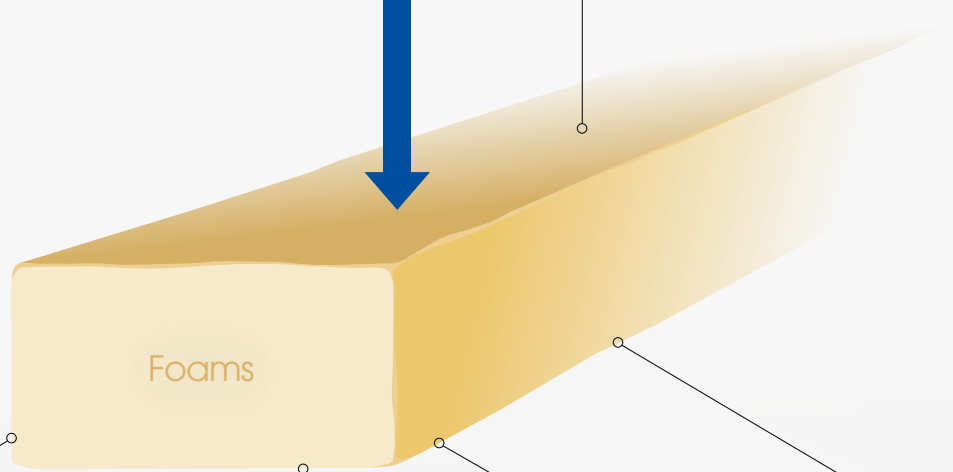

Our foams in three variants:

- first** Highest performance and comfort
- plus** Noticeably greater performance
- classic** Proven quality

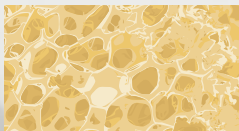

This product offers bulk densities (BD) in a range from 15–85 kg/m³

EUCABASE®

The stable and robust foam

- up to 24 BD
- 25–39 BD
- from 40 BD

EUCASELECT®

Diverse quality for high-grade products

- up to 39 BD
- 40–49 BD
- from 50 BD

EUCAFEEL®

High-end special foam for premium products

- up to 44 BD
- from 45 BD

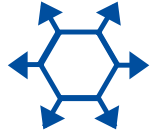

EUCAVISCO®

Comfort foam with memory effect

- up to 49 BD
- 50–59 BD
- from 60 BD

Special breathability:

The open-pore cell structure enables a high degree of air circulation

Reliable hardness:

Tight tolerances ensure consistent quality

Extensive certification:

Our safe, low-emission products exceed by far the required standards

Practice-oriented specialists:

Best chemical expertise, decades of experience, constant striving for innovation

Unique formulation:

High-quality raw materials, special stabilizers and optimized catalysis

State-of-the-art process engineering:

German machine technology and high pressure foam systems

EUCABASE® Start with quality

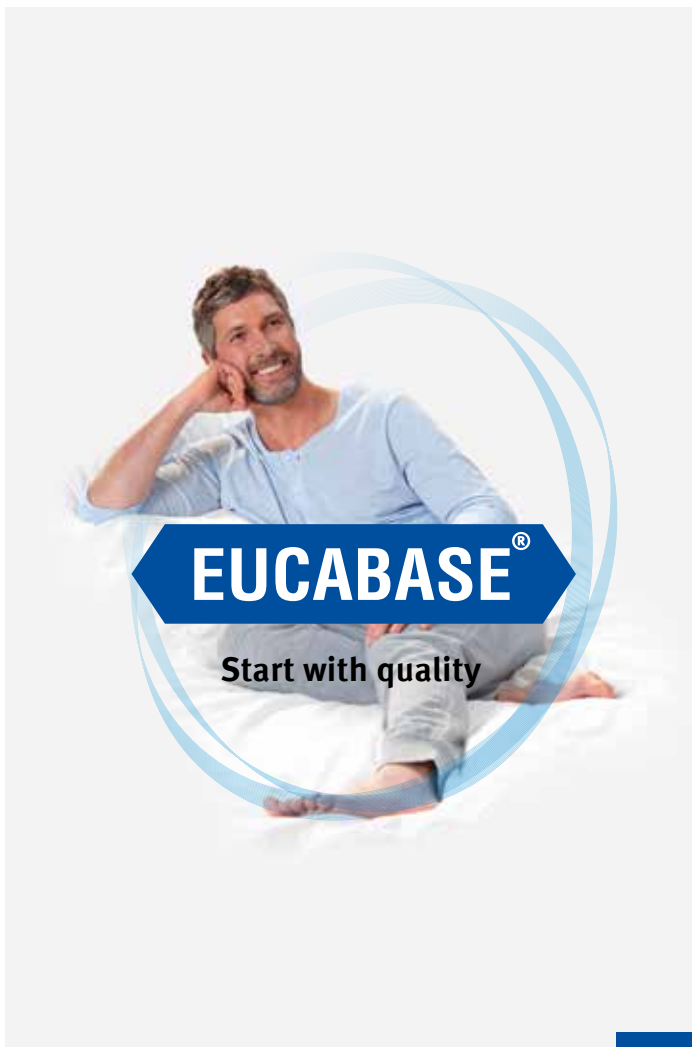

As a high-quality entry, the new family of brands offers **particularly stable and robust foams** with EUCABASE®.

- High form stability
- Outstanding load capacity
- Greater profitability

EUCASELECT® Your foam of choice

EUCASELECT® represents a **large selection of quality foams**. Numerous combinations of bulk density, compression hardness and comfort index create a broad premium range with many highlights.

- The best rating for the comfort index
- Ideal elasticity
- Intensive air circulation
- Reliable degrees of hardness

EUCAFEEL®

Innovation you can feel

EUCAFEEL® is our **high-end speciality foam for your premium products**. Special properties: The innovative EUCAFEEL® foams are extremely open-celled and regulate sleep comfort perfectly.

- The best moisture control
- The best thermal control
- High breathability
- Optimum pressure relief

EUCAVISCO®

A matter of comfort

Our EUCAVISCO® comfort foams are characterized by their **high degree of open porosity combined with a memory effect**. The shape memory property enables the foam to adapt to the shape of the body.

- Optimum memory effect
- Intensive air circulation
- Anti-decubitus effect

Always the correct foam quality

Our new world of brands comprises of four product families each with their own brand names. The EUCABASE® and EUCASELECT® names refer to the **comfort index** rating, whilst the EUCAFEEL® and EUCAVISCO® names refer to their **special quality**:

- **EUCABASE®** – comfort index up to 2,6
- **EUCASELECT®** – comfort index up to 3,1
- **EUCAFEEL®** – a premium quality hydrophilic
- **EUCAVISCO®** – visco-elastic quality

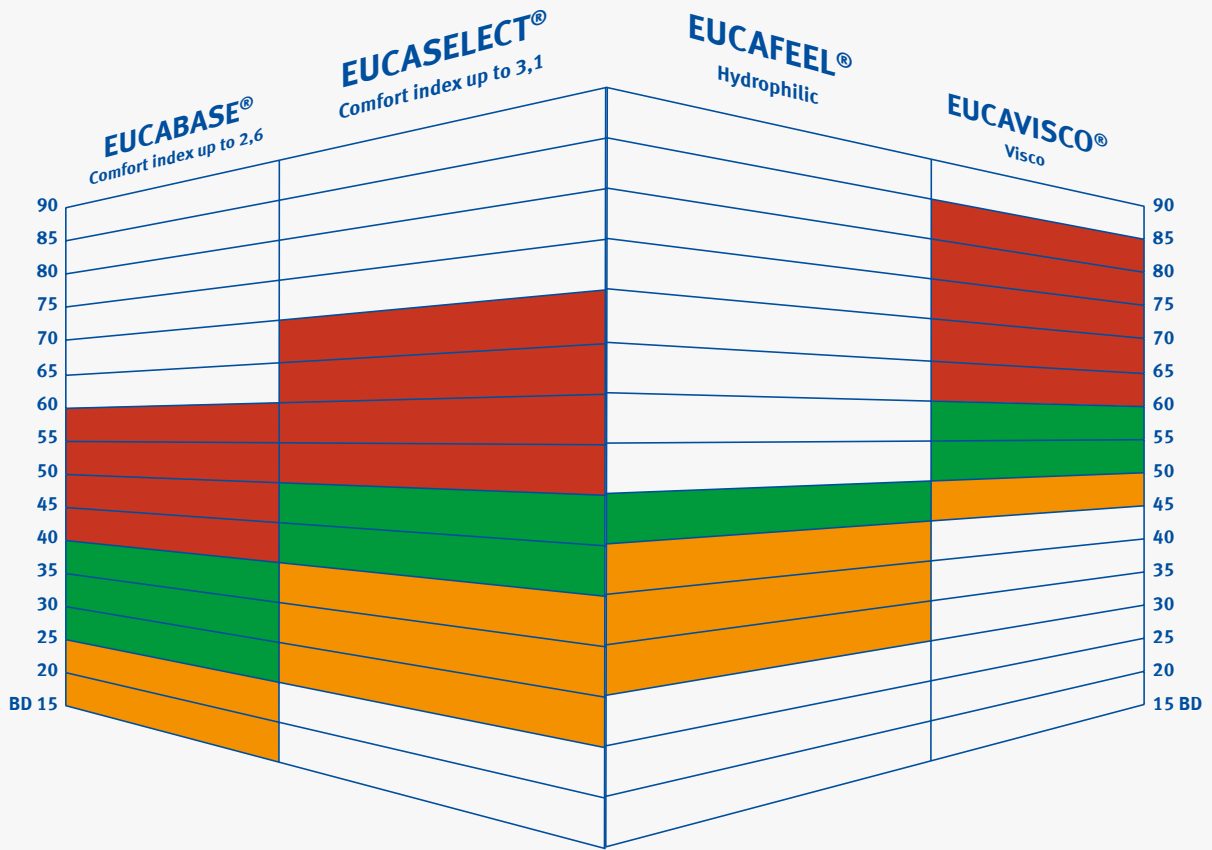

The three categories of classic, plus and first indicate the different **quality levels** within the family of products:

- **classic** – proven quality
- **plus** – noticeably greater performance
- **first** – the highest performance and comfort

With regard to **quality, all of the brands are classified by bulk density (BD)**.

Therefore, an EUCAVISCO® product with a bulk density of 45 kg/m³ is placed in the classic category, but an EUCABASE® product with a bulk density of 40 kg/m³ is placed in the first category.

Our overview shows the desired quality level at a glance.

- first** Highest performance and comfort
- plus** Noticeably greater performance
- classic** Proven quality
